Call to Order

Chief Cousino called the meeting to order at 8:32 a.m.

Minute Approval

The minutes from the October 3, 2016 meeting were made available for review. Minutes accepted with a correction on page regarding Narcan doses.

Old Business

CE – Brent reported the 2017 schedule is out and ACLS will be in September as an eight hour course.

Vending Machine – Cheryl Herr noted that in October's minutes a discussion regarding the vending machines and asked what the hospitals would need to provide to support the vending machines in the hospitals such as if there is a power shortage at the hospital would this be affected.

Dennis reported LCEMS is just trying it out now and it is initially located in the Annex. Dennis said the first issue would be space, second would be power and third internet access. Dennis reported the plan now is retouching it in CE in January and go live at the Annex in February. Once the Annex is successful we would like to move them to one of the hospitals to test.

Board of Pharmacy & positive ID – Dr. Schwerin reported he received a spread sheet from Chief Helminski which shows a medication record and provides the ability for the paramedics to sign a form. This form has on it to fill in the medic unit, incident number, date, patient name, the quantity of medication given, route that is administered, name of the crew member administering the medication and if medication is destroyed, there is an area on the form to fill in the quantity destroyed, brand name, witness crew member. Dr. Schwerin reported the Board of Pharmacy has only approved one electronic system and that is the IMS electronic patient care report which is around the Cleveland area.

New Business

Opiate Task Force – Chief Price reported the Task Force met last Thursday. It was discussed the Narcan packaging and the Health Department as the agency providing the drug. Chief Price also noted that last month there was a recall on the atomizer piece and to avoid this in the future the Health Department is looking to purchase different packaging where it will not be needed to be atomized. Chief Price also reported St. Paul's at 1201 Adams Street will be offering syringe exchange and counseling service for addicts something the first quarter of 2017.

Dr. Lindstrom reported the Health Department in Cleveland will be supplying information regarding their program. Dr. Lindstrom said there will be documentation and training if LCEMS implements the program they have.

Care Registry – Brent reported we are awaiting an invoice to proceed. Brent said the program would go live January 1<sup>st</sup> and the hospitals would have to receive training. Brent reported we are implementing this program for our system and if we go statewide we will not have to pay. It was also mentioned the State Care Coordinator would be the big cost for everything.

Adjournment - With no further business, the meeting was adjourned at 8:48 a.m. The next Medical Committee meeting will be February 6<sup>th</sup> at 8:30 a.m.
