TO: ALL LUCAS COUNTY PARAMEDICS

FROM: Jonathon Ziehr, NREMT-P
Lucas County EMS Continuing Education Program Administrator

DATE: February 10, 2017

SUBJECT: **Continuing Education – March 2017**

With the incredible advancements made to prehospital ETCO2 continuous waveform monitoring we will be taking an in-depth look at its expanded uses. ETCO2 monitoring has been a true asset in identification and treatment for respiratory emergencies. We will begin with the basics and travel through many other medical emergencies such as sepsis and cardiac. Lastly, we will re-introduce and review the ResQGARD (ITD) in its entirety. CE will consist of both lecture and skill scenarios.

In preparation for March CE I ask that you take time to review the following protocols:

- **Tab 900; Section U: Respiratory Distress**
- **Tab 500; Section F: Capnography**
- **Tab 500; Section EE: ResQGARD (ITD)**

I look forward to seeing you in the coming month. If you have any questions or comments please feel free to contact Brent, Aislinn or myself.
