Re: Lucas County Prosecutor Office – Civil Division
Request for Approval Dell Precision 15 5000 w/ Windows 10

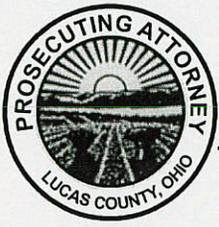

Dear Board:

After consultation with LCIS, and in particular Network Administrator Jeremy Burnat, the LCPO - Civil Division is requesting the purchase of a Dell Precision 15 5000, with a Windows 10 operating system. The funds for the purchase would come from the Law Enforcement Trust Fund.

The selection of this particular computer came after several discussions with Mr. Burnat wherein the desired operating parameters were discussed. Mr. Burnat then secured quotes to match the needs of the department. An important aspect of the selected laptop rested upon the type of cases attorneys in the civil division are currently assigned to, that is, trials, hearings, administrative matters and township meetings. In the course of those assignments, and in particular at trial, attorneys require access to large scale document and video files. In fact, one significant pending case has 40,000 pages of documents produced along with large scale video files. Such documentation requires significant data storage, and the capability to access the data quickly and efficiently so as to create the most impactful presentation.

The requested laptop meets those demands by including

- Two hard drives, allowing sufficient storage to accommodate video files and the records
- Touch screen capabilities to permit attorneys to quickly access required data
- Windows 10 operating system, which is user friendly for touch screen applications and which is capable of interfacing with newer technology developments
- Extended battery life to increase mobility with courtroom settings, particularly given the demands of the operating system and expected usage

The selected laptop will also increase efficiency for projected upgrades to the technology currently available.

The Lucas County Prosecutor's Office therefore requests approval of the purchase of the Dell Precision 15 5000 with Windows 10 operating system. If there are any questions regarding the Department's needs, please advise. As to technical capabilities, LCIS would be prepared to answer any questions.

Very truly yours,

Dennis A. Lyle
